TRENCH CRUSADE™

RULES REVIEW

OCTOBER 2026

THE COURT OF THE SEVEN-HEADED SERPENT

Jutting from plumes of stinking, corrosive smoke rises the Iron City of Dis, and atop its shrieking, black keep sits the Infernal War Council. Seven of the greatest, most wicked, and cunning of archdevils preside over the War against Creation, and on their orders do the spawn of Lucifer go forth to wreak death and corruption upon the mortal world.
Many warriors of the Court have access to Goetic abilities, powers and spells which use the suffering of mortals as spiritual energy to unleash the reality-bending powers of the demons. As God's plan is disrupted and perverted, Infernal sorcerers and other demonic creatures can use the released primordial energy of Creation to alter reality. Demons have to be quick however; God's omnipotence will soon reassert itself and the opportunity to disturb the world will be lost. Thus Infernal creatures have a continuous, growing need for human sacrifices, pain and endless warfare to enable their supernatural powers.

Creating a Warband

Court of the Seven-Headed Serpent Warbands are Fallen, and use the THE COURT Faction Keyword (unless otherwise stated). The different Warband Variants for Court of the Seven-Headed Serpent Warbands can be found below.

Special Rules

The following special rules apply to a Court of the Seven-Headed Serpent Warband (including any Court of the Seven-Headed Serpent Variant Warbands).

- **SIN MARKERS**: The warriors of the Court are empowered by their diabolical deeds in the material world, these are represented by SIN MARKERS which are spent to fuel Goetic Spells. SIN MARKERS can be gained through Special Rules (such as Mortal Suffering) or Battlekit (such as a Chthonic Vessel), and are tracked using a D6 placed next to the model (we recommend using a black dice or another thematic colour distinct from the other markers in your game). No model can have more than 6 SIN MARKERS.
    - **Mortal Suffering:** When a friendly model with the DEMONIC Keyword would place a BLOOD MARKER next to an enemy model for any reason (including attacks, abilities, etc.), you can instead place a SIN MARKER next to this friendly model.
    - **Perversion of God's Laws:** When a friendly model with the DEMONIC Keyword would have a BLOOD MARKER placed next to it, your opponent can instead choose to remove a SIN MARKER from it.

    - For example, a friendly Yoke Fiend with 3 SIN MARKERS would have 2 BLOOD MARKERS placed next to it from an Injury Roll made with the SHRAPNEL Keyword. Instead, your opponent can choose to remove 1 of the Yoke Fiend's 3 SIN MARKERS and place 1 BLOOD MARKER next to the Yoke Fiend.
- **Goetic Powers**: ELITE models in a Court of the Seven-Headed Serpent Warband can have Goetic Powers. The number of Goetic Powers a model can have is shown on its Warband Entry. Goetic Powers can be purchased for a model when it is recruited or during the Quartermaster Step. However, you must pay 1 ✳ for each model that you wish to purchase a Goetic Power for in the Quartermaster Step, representing the effort needed to learn a new power. All of the Goetic Powers that are available are described in the Goetic Powers List below, or directly after the Warband Entry for a model that uses them. Goetic Powers are divided into Goetic Abilities and Goetic Spells.
- **Goetic Abilities**: Goetic Abilities are used in the same way as an Ability from the model's Warband Entry. They do not require you to spend SIN MARKERS to use.
- **Goetic Spells**: Goetic spells must be cast in order for them to be used. The description for the spell will say how and when it can be cast. Note that you do not have to take a Success Roll for a model in order to cast a spell. A model cannot cast the same spell more than once per Activation unless otherwise specified. The model that is casting a spell is called the spellcaster.
    - To cast a Goetic Spell, you must remove a number of SIN MARKERS from models equal to the spell's cost. You can remove the SIN MARKERS from any friendly models that have the DEMONIC Keyword. The models can be anywhere on the battlefield and do not have to be in the spellcaster's Line of Sight, and the spell cost can be paid by removing SIN MARKERS from more than one model if you wish.
    - If the cost of a Goetic Spell is a range of numbers, you must choose how many SIN MARKERS you will pay before the spell is cast. For example, if a Goetic Spell had (Cost 1-3), you must pay a cost of 1, 2 or 3 SIN MARKERS before you cast the spell.
    - Some Goetic Spells can only be cast if a model takes a Cast Spell ACTION. When it does so, you must pay the spell cost as described above, and you can then cast the spell with the model. You can use the Cast Spell ACTION more than once per Activation, as long as you do not cast the same spell more than once.

The Court of the Seven-Headed Serpent Battlekit

The following Battlekit items are unique to a Court of the Seven-Headed Serpent Warband.
Rules for all other items are in the standard Battlekit section.

Arquebus | 8

A primitive matchlock weapon, simple enough that even a Yoke Fiend is capable of operating it and sturdy enough to be used as a club with which to batter an opponent in a melee.

Type	Range	Keywords
2-Handed	18”/Melee	CUMBERSOME

Chthonic Vessel | 1 ✳ | ELITE only, Limit: 1

An excursion into Creation is not to be taken lightly for those who serve the Court, for every practitioner of the Goetic arts knows that the petty Tyrant’s laws will soon correct themselves. For this reason, many of the nobles of the Court bring with them a chthonic vessel, more often than not some poor mortal enslaved and bloated with sin, which they can rapidly draw upon to fuel their foul sorceries.

Type	Range	Keywords
Equipment	-	CONSUMABLE

Break Vessel ACTION: Once per game, a model with a Chthonic Vessel can use it to take a Break Vessel ACTION. If it does so, place 2 SIN MARKERS next to the model taking the Break Vessel ACTION. Each Chthonic Vessel can be represented by a model which is removed when its owner takes the Break Vessel ACTION if you wish. Place them adjacent to the model that they are following but note that Chthonic Vessels are not treated as models for any rules purposes; just move them out of the way if they get in the way of a “proper” model.

Crown of Hellfire | 15 ⓜ | ELITE & Pit Locusts only

This burning crown is held aloft by the pain-seared hands of an invisible damned soul, whose weeping cries can still be heard. It is a reward that an elite member of the Court can earn through some extraordinary act in the service of the Serpent Head they are pledged to. Of the slave soldiers of the Court, only the Pit Locusts are allowed to wear this symbol of prestige due to the fundamental role they played at the start of the Great War.

Type	Range	Keywords
Equipment	–	–

Searing Flames: When a model with a Crown of Hellfire ends its Activation, place 1 BLOOD MARKER next to each enemy model within 1" of the model with a Crown of Hellfire, except for enemy models that have the NEGATE FIRE Keyword.

Fiendbound Gatling Gun | 20 ⓜ | Limit: 3

An ornate, slender arrangement of chains, cranks, and rotating barrels, each fiendbound gatling gun is built around a carefully extracted and preserved nerve bundle from a Yoke Fiend that sought escape from its master. With the aid of another, these nightmarish creations can have their chain-mechanisms manually overworked, agonising the still-receptive nerves inside to scream forth a great hail of jagged bullets at a nearby foe.

Type	Range	Keywords
2-Handed	24"	HEAVY, SHRAPNEL

Excruciate: Before making a Ranged Attack with a model armed with a Fiendbound Gatling Gun, you can say that the model will Excruciate the weapon. To do so, the model has to either have the STRONG Keyword or be in contact with a friendly model. An Excruciated Ranged Attack gains the AUTOMATIC 2 and RELOAD Keywords.

Headtaker | 15 ⓜ | Limit: 2

Said to contain a tiny sliver of the stone that Cain used to murder Abel, this weapon allows its wielder to identify any point in the body of their enemy that would bring it instant and agonising death. This makes it a superb ambush weapon much favoured by the Hunters of the Left-Hand Path.

Type	Range	Keywords
1-Handed	Melee	–

Ambush Weapon: Add a +2 INJURY MODIFIER to rolls made for this weapon if the target has not yet been Activated this Turn.

Iron Maiden Flail | 4 ✳ | Hell Knight only, Limit: 2

An iron maiden is a sarcophagus inlaid with sharp spikes, designed to close tight around some poor body and slowly bleed them out. An iron maiden flail is the same thing, but attached to a large, flexible chain designed for swinging. When the blood of a sinner fills the Goetic runes inside, the spikes project outwards, making for a devastating weapon that shreds even the toughest armour.

Type	Range	Keywords
2-Handed	Melee	+1 DICE, CUMBERSOME, HEAVY

Crushed Inside: At the start of each game, before deployment, you can say that one Wretched will be Crushed Inside in the Iron Maiden Flail. The Wretched you choose is permanently removed from your Warband, but in a campaign you can add their Battlekit to your Warband's Arsenal. Attacks made with an Iron Maiden Flail that have a Wretched Crushed Inside have the IGNORE ARMOUR Keyword. In addition, Place 1 SIN MARKER next to a model with an Iron Maiden Flail that has a Wretched Crushed Inside when a Melee Attack made with it is a Success or a Critical Success.

Jaws of Iron | 5 ⓜ | Yoke Fiends only

Yoke Fiends are known to carry belts of small man traps to throw before a charge. Whilst they are exceptionally risky to use, the jaws of iron serve as rather potent distractions for those struggling to free themselves in the seconds before the Fiends close in.

Type	Range	Keywords
Grenade	6"	–1 INJURY DICE, ASSAULT, IGNORE LONG RANGE

Snap Shut: If a Ranged Attack made with Jaws of Iron is a Success or a Critical Success, the model that made the Ranged Attack can add +1 DICE to any Melee Attacks it makes targeting the same model during the same Activation.

Malebranche Sword | 35 ⛂ | Limit: 1

These forked Abyssal swords are terrible weapons as well as symbols of prestige. They are given to demons who have performed great deeds in the service of the Court and were once carried by fallen seraphim in battles against Heaven.

Type	Range	Keywords
2-Handed	Melee	DEADLY, HEAVY

Ophidian Rifle | 25 ⛂ | ELITE only, Limit: 3

This wheel-lock hunting rifle is produced in the forges of the demon Sabnock, the great marquis of war. Made of both Infernal and Earthly metals and materials, it exists simultaneously in the twisted dimension of Hell as well as on Earth. A thing that should not be, the shots of this firearm pervert the laws of God, so targets taking cover are easier to hit, and firing over great distances aids the user of this Hell-made rifle instead of hindering their aim.

Type	Range	Keywords
2-Handed	30”	HEAVY, IGNORE COVER, IGNORE LONG RANGE

Unnatural Inversion: Add +1 DICE to the roll for attacks made with this weapon if the Cover modifier would apply to the attack, and add +1 DICE to the roll for attacks made with this weapon if the Long Range modifier would apply to the attack. Note that these +DICE are applied even though this weapon has the IGNORE COVER and IGNORE LONG RANGE Keywords.

Restraining Muzzle | 10 ⛂ | Yoke Fiend only, Limit: 3

Yoke Fiends are unruly beasts, and almost impossible to control when they smell mortal blood. Court nobles use these cruel, barbed muzzles to bring them to heel. Each is attuned to the will of its master, who can constrict them with a command word, until the pain becomes so unbearable that even the most bestial Yoke Fiend is made to obey.

Type	Range	Keywords
Equipment	–	–

Brought to Heel: Add +1 DICE to rolls made for a Ranged Attack made by a Yoke Fiend that has a Restraining Muzzle.

Serpent Assault Gun | 45 ⛂ | Limit: 2

This terrifying and enormous hand cannon contains a portal to the foetid swamps and bogs of the Fifth Circle of Hell. Each bullet it fires is enveloped with an awful gas.

Type	Range	Keywords
2-Handed	36”	ASSAULT, AUTOMATIC 2, GAS, HEAVY

Torture Instrument | 10 ⛂| DEMONIC only

Great scourges made from living spines, red-hot rods, man-catchers, and other tools of torment fashioned by the sadistic smiths of Dis are widely used by the Court’s warbands. Their main function is not to kill, but to cause as much agonising pain as possible. Forged in hellfire and quenched in the black waters of the River Styx, their wounds cause suffering that lasts for days.

Type	Range	Keywords
2-Handed	Melee	–

Agonising Injuries: When you make an Injury Roll for an attack made with a Torture Instrument, roll 1D6 instead of 2D6, but then double the number of BLOOD MARKERS that are caused by the roll (if there are any). Any +INJURY DICE or –INJURY DICE that applied to the Injury Roll will apply normally, except that you pick the single highest or lowest dice in the roll instead of the 2 highest or lowest. Note that when you make a Bloodbath Roll for an attack made with a Torture Instrument, you only roll 2D6 instead of 3D6, but you can then double the number of BLOOD MARKERS that are caused by the roll.

Torture ACTION: A model with a Torture Instrument can take a Torture ACTION instead of a Fight ACTION in their Activation. If it does so, it can make a Melee Attack with the Torture Instrument targeting a friendly model within 1” that does not have the DEMONIC Keyword. If the Success Roll for the Melee Attack is a Success or a Critical Success, place 1 SIN MARKER next to the model taking the Torture ACTION, and the targeted model is taken Down (do not make an Injury Roll for the model).

Goetic Powers List

The Goetic Powers that can be used by models in a Court of the Seven-Headed Serpent Warband are described here. Most Goetic Powers can only be taken by specific models. Any such restrictions are included in the description for each of the Powers. In addition, each Power has a cost in ⛑.

ANY WARBAND

The following Goetic Spells and Powers can be taken by any Court of the Seven-Headed Serpent Warband (including Court of the Seven-Headed Serpent Variant Warbands).

Black Heart | 5 ⛑ | Spell (Cost 1) | ELITE only, Limit: 2

Sin has corrupted the heart of this fallen creature to such an extent that there is a gaping hole within its chest, bleeding thick black tar that empowers its wicked actions.
You can cast this spell before taking a Success Roll or a Risky Success Roll for the spellcaster. If you do so, add +1 DICE to the roll.

Blessing of the Serpent Moon | 5 ⛑ | Spell (Cost 2/4/6) | Sorcerer only

As above, so below.
You can cast this spell before an Injury Roll is made for the spellcaster. If you do so, add a -1 INJURY MODIFIER to the roll for every 2 SIN MARKERS that were paid to cast the spell.

Infernal Challenge | 10 ⛑ | Ability | Hell Knights only

A Hell Knight's purpose is beyond that of a mere warrior; they also represent the unholy glory of their wicked masters.
Add +1 INJURY DICE for Melee Attacks made by a model with this Goetic Ability if the target model has the TOUGH Keyword.

Raining Blood | 10 ⛑ | Spell (Cost 1-3) | ELITE only, Limit: 3

The spellcaster makes a foul gesture towards the heavens above, cruel fingers tracing lesions into the sky itself.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, target a number of enemy models equal to the number of SIN MARKERS that were paid to cast the spell that are within 18" of the spellcaster (no Line of Sight is required). Place 1 BLOOD MARKER next to each targeted enemy model.

Slavemaster | 10 ⛑ | Spell (Cost 1) | ELITE only

Yoke Fiends are held in total thrall by the mightier members of the Court.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell.
If you do so, you can carry out one of the following Commands with a friendly Yoke Fiend that is within 18" of the spellcaster. Carrying out a Command does not stop the Yoke Fiend from being Activated in the same Turn (before or after the Command was issued).

- Fight Command: The Yoke Fiend carries out a Fight ACTION.
- Move Command: The Yoke Fiend carries out a Move ACTION (it cannot Charge or Retreat).
- Sacrifice Command: The Yoke Fiend kills itself. It is taken Out of Action.
- Shoot Command: The Yoke Fiend carries out a Shoot ACTION.

Elite Warband Entries: Nobles of the Court

0-1 Praetor - Cost: 115

A Court of the Seven-Headed Serpent Warband must include either a Praetor or a Sorcerer, and it can include both.
Praetors are demonic commanders and magistrates within a small corner of the fiefdom of a mighty arch-devil or demon lord. Each commands small cohorts at their liege's behest, raised from the denizens of the ever-shifting domains of Hell. Yoke Fiends muster at their command and Hell Knights, bound to blind obedience, bend their knees to these field commanders of Hell.

Movement	Ranged	Melee	Armour	Base
8"/Flying	+3 DICE	+3 DICE	0	50mm

Battlekit A Praetor can have any Battlekit from The Court's Armoury Tables.
Powers A Praetor can have up to 2 Goetic Powers.
Abilities
- **Beacon of Corruption:** When a Praetor Activates, place 1 SIN MARKER next to it.

Keywords THE COURT, DEMONIC, ELITE, FEAR, FLYING, LEADER, STRONG, TOUGH

0-1 Sorcerer – Cost: 85

A Court of the Seven-Headed Serpent Warband must include either a Praetor or a Sorcerer, and it can include both.
Sorcerers come in many forms and manipulate their bodies to better cast the mighty spells they are charged with. Some have many arms, others multiple heads or countless alterations and terrible improvements, some self-administered, others forced upon them, based on the whims of the archdevil and the cabal of High Sorcerers who lead their Goetic strategy. A Sorcerer's feet do not touch the ground, a distant echo of their angelic past, instead they float across No Man's Land, chanting the cruel gospel of Hell as they advance. Their dark wisdom and cunning make them equally capable of leading one of the Court's warbands or acting as advisors to one of the Praetors as they stride forth into the mortal realms.

Movement	Ranged	Melee	Armour	Base
6"/Flying	+1 DICE	+1 DICE	0	50mm

Battlekit A Sorcerer can have any Battlekit from The Court's Armoury Tables apart from Ranged Weapons and Grenades.
Powers A Sorcerer has the Burning Inferno Goetic Spell (▸ see below) and can have up to 3 additional Goetic Powers.
Abilities
- **Auxilia Sorcerer:** A Sorcerer can have the LEADER Keyword at a cost of +5 .

Keywords THE COURT, DEMONIC, ELITE, FEAR, FLYING

Burning Inferno | Spell (Cost 1-3) | Sorcerer only

The Sorcerer opens a portal to the Lake of Fire, drawing forth a great screaming ball of Infernal lava mixed with damned souls.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, the spellcaster can make a Ranged Attack with a Range of 36". The attack has the following Keywords depending on the number of SIN MARKERS that were paid to cast the spell:
1 SIN MARKER: BLAST 1", FIRE, SCATTER.
2 SIN MARKERS: ARMOUR PIERCING, BLAST 2", FIRE, SCATTER
3 SIN MARKERS: ARMOUR PIERCING, BLAST 3", FIRE, SCATTER. In addition, if the Success Roll for a Ranged Attack with a Burning Inferno that targets an enemy model and had 3 SIN MARKERS paid to cast it is a Success or a Critical Success, or if the attack is a Failure and the target point scatters onto a model's base, apply the effect of the IGNORE ARMOUR Keyword to the Injury Roll for that model.

0-3 Hell Knights – Cost: 100

The silent battalions of Inferno, summoned to serve when the Court of the Seven-Headed Serpent seeks sport, are composed of Hell Knights. Their ever-burning banners stream as they march to war, carrying out the bidding of their masters. They are the bannerets of the high lords of the Court, champions who respond to foolish mortals daring to challenge the hunting parties of the Serpent's nobility.

Movement	Ranged	Melee	Armour	Base
6"/Infantry	+0 DICE	+2 DICE	-2	40mm

Battlekit A Hell Knight always has a suit of Infernal Iron Armour (▸ see below). The Injury Modifier for the Armour is already included in the model's Profile above. They can also have any Battlekit from The Court's Armoury Tables apart from Armour.
Powers A Hell Knight has the Blood Magic Goetic Spell and can have up to 1 additional Goetic Power.

For example, if the attack has the BLAST Keyword, you would add +1 INJURY DICE to the rolls for each model that was caught in the blast radius of the attack.

0-1 Hunter of the Left-Hand Path – Cost: 110

The Hunters of the Court of the Seven-Headed Serpent are followers of the Left-Hand Path. They stalk the primordial hinterlands of hell where they hunt terrifying beasts. They perform vile magicks and auguries using the innards of their still-living prey to discern portents and omens.

Movement	Ranged	Melee	Armour	Base
6"/Infantry	+2 DICE	+1 DICE	0	32mm

Battlekit A Hunter of the Left-Hand Path always has a Bow of Lethe (▸ see below). It can also have any Battlekit from the Court's Armoury Tables apart from 2-Handed Weapons or Shields.

Abilities None
Keywords THE COURT, DEMONIC, ELITE, INFILTRATOR

Bow of Lethe

This bow is grown by the Hunters of the Left-Hand Path out of their own flesh. It can be tipped with deadly poison made from the blood of the nameless beasts that the Hunters stalk in the wastelands of Hell, or it can shoot one of the iron bolts of Pandemonium, that weigh nine tonnes on Earth.

Type	Range	Keywords
1-Handed	24"	ASSAULT, HELD, INNATE

Fell Arrows: Before making an Injury Roll for an attack made with a Bow of Lethe, you must choose if the roll will have the +2 INJURY DICE Keyword or the IGNORE ARMOUR Keyword.

Left-Hand Path | Spell (Cost 2) | Hunter of the Left-Hand Path Only

You can cast this spell when the spellcaster takes a Move or Dash ACTION. If you do so, you can interrupt the spellcaster's move to remove it from the battlefield and then redeploy it in contact with

a terrain piece within 24” and more than 1” from any enemy models. You can then carry on with the spellcaster's move as normal. This spell can be cast more than once during the course of a single ACTION (you must pay its cost each time it is cast).

Oracle Beast Cloak | Spell (Cost 3) Hunter of the Left-Hand Path Only

You can cast this spell once per Turn after an Injury Roll is made for the spellcaster. If you do so, the result of the Injury Roll is changed to a No Effect result (make Injury Rolls for other models hit by the same attack normally).

Shadow-Walker | Spell (Cost 2) | Hunter of the Left-Hand Path Only

You can cast this spell before the spellcaster takes a Retreat ACTION. If you do so, enemy models cannot make free strikes against the spellcaster.

Troops Warband Entries: War Slaves

Wretched of the Court – Cost: 20

The number of Wretched of the Court in a Warband must be outnumbered by the number of models with the DEMONIC Keyword.
These unfortunate souls possess not a drop of demon blood. They act as disposable shock troops or are used as subjects of torture to power the Goetic magic of the sorcerers and other users of the dark arts. Should a Wretched of the Court bring down a mighty opponent, the law of Hell is clear, the mortal will gain its freedom, in memory and honour of the First Rebellion when there was war in Heaven and blood of the angels painted the firmament red.

Movement	Ranged	Melee	Armour	Base
6”/Infantry	–1 DICE	–1 DICE	0	25mm

Battlekit Wretched of the Court can have any Battlekit from The Court's Armoury Tables that costs up to 10 . A Wretched of the Court must have at least 1 Weapon (they cannot be sent into battle completely unarmed).
Abilities

- **Goaded Forth:** Add +1 DICE to the Risky Success Rolls for a Wretched of the Court that is taking a Dash ACTION if there is a friendly Yoke Fiend within 8” and in Line of Sight.
- **Law of Hell**: If an attack made by a Wretched of the Court takes an enemy model with the ELITE Keyword Out of Action, the Wretched of the Court model gains its freedom and is immediately removed from the game. It no longer counts as being part of the Warband for the purposes of Morale Checks, and is removed from the Warband Roster.

Keywords THE COURT, UNPROMOTABLE

0-3 Pit Locusts – Cost: 90

Pit Locusts are terrifying, horse-sized, winged, and armoured creatures with twisted faces resembling humans. They fight with rending blades attached to their limbs and with poison stingers.

Movement	Ranged	Melee	Armour	Base
8”/Flying	+0 DICE	+2 DICE	–2	30 by 60mm

Battlekit A Pit Locust can have a Crown of Hellfire from The Court's Armoury Tables. They cannot have any other Battlekit.
Abilities

- **Insectile Stingers**: A Pit Locust can make a Melee Attack with the CLEAVE 2 and SHRAPNEL Keywords even though it does not have a Melee Weapon.

Keywords THE COURT, DEMONIC, FEAR, FLYING, LIMITED POTENTIAL

Yoke Fiends – Cost: 35

A Yoke Fiend stands some seven to eight feet tall, with layers of shivering fat and muscle branded by their masters, carved by the knives of the priests of Hell to mark them as property of greater demons. They exhibit bestial features such as horns and hooves of cattle or goats, ape-like limbs with immensely dense bones. They hate seeing their own reflections, as in their heart of hearts they know the beauty and glory they have lost for all eternity.

Movement	Ranged	Melee	Armour	Base
6”/Infantry	+0 DICE	+1 DICE	0	32mm

Battlekit A Yoke Fiend can have any Battlekit from The Court’s Armoury Tables. However, it can only have 1 Ranged Weapon, and that Ranged Weapon must have a cost of 30 or less.

Abilities

- **Glory Lost**: Add +1 DICE to Melee Attacks made by a Yoke Fiend if there are 3 or more SIN MARKERS next to any number of friendly Yoke Fiends on the battlefield.

Keywords THE COURT, DEMONIC, UNPROMOTABLE

0-1 Desecrated Saint – Cost: 140

Desecrated Saints are the most prized possessions of the lords of Hell: men and women once destined to become saints, great prophets or holy ones according to God’s plan, but who were led astray and fell from grace.

Movement	Ranged	Melee	Armour	Base
6”/Infantry	+0 DICE	+2 DICE	–3	60mm

Battlekit A Desecrated Saint has several arms. It can have up to three 1-Handed Melee Weapons from the Court's Armoury Tables or two 1-Handed Melee Weapons and one 2-Handed Melee Weapon (which it can use 1-Handed since it has the STRONG Keyword). In addition, one of the hands used to have a 1-Handed Melee Weapon can instead be used to have a Tormentor Chain. It cannot have any other Battlekit.

Abilities

- **Annihilator**: A Desecrated Saint can take 1 Fight ACTION per Activation with each Melee Weapon it is equipped with.
- **Aura of Sin**: Enemy models within 6” of this Desecrated Saint do not count as friendly models for the purposes of other enemy models’ abilities, ACTIONS, or special rules for their Warband or Battlekit, excluding Ranged Attacks.
- **Relentless**: Do not halve the Movement Characteristic of a Desecrated Saint when it stands up at the start of an Activation.
- **Totemic**: If a friendly model with the DEMONIC Keyword is Activated while it is within 1” of a friendly Desecrated Saint, place 1 SIN MARKER next to the friendly model before it carries out any Actions.

0-3 Pit Locusts

0+ Yoke Fiends: Yoke Fiends in a High Cathedra of Pride Warband that are not wearing Restraining Muzzles have the NEGATE FEAR Keyword and the Prideful ability:

- **Prideful:** This Yoke Fiend cannot voluntarily make a retreat move.

0-1 Desecrated Saint: Desecrated Saints in a High Cathedra of Pride Warband can have a Troop Flag, the Glorious Light Battlekit (▸ see below), and can replace their armour with the Cloak of the Morningstar. In addition, Desecrated Saints in a High Cathedra of Pride Warband replace the Aura of Sin ability with the Oppressive Brilliance ability:

- **Oppressive Brilliance:** Place 1 BLOOD MARKER next to each enemy model that is within 8" of this Desecrated Saint when the Desecrated Saint's Activation ends.

Any Mercenary able to be taken by THE COURT Warbands

SPECIAL RULES

The following special rules apply to a High Cathedra of Pride Warband in addition to those that apply to Court of the Seven-Headed Serpent Warbands.

Burning Shame: If a model in a High Cathedra of Pride Warband makes a retreat move, the opposing player can place 1 BLESSING MARKER next to any model in their Warband.
Non Pavebo: A High Cathedra of Pride Warband does not have the Mortal Suffering special rule. In addition, whenever a friendly model with the ELITE Keyword Activates in Open terrain and is not in contact with a terrain piece that is at least ½" high and as wide as the model's base in such a way that it would have the COVER Keyword, place 2 SIN MARKERS next to that model.
Proud Standard: As long as a model in your Warband that has a Troop Flag is not Down or Out of Action, lower the roll needed to achieve a Critical Success for Attacks made by friendly models by 1.

GOETIC POWERS

The following Goetic Powers can be taken by a High Cathedra of Pride Warband in addition to those that can be taken by Court of the Seven-Headed Serpent Warbands.

Light of Samael | 15 ⛑ | Spell (Cost 2) | Praetors & Sorcerers only

The angel Samael fell from splendour and glory, and now his divine light burns all in its path.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, pick an enemy model that is within 24" of the spellcaster and in their Line of Sight, and then make an Injury Roll for the enemy model. In addition, if the enemy model is not taken Out of Action by the Injury Roll and is mounted on a base of 40mm or smaller, it makes a forced move D6" in a straight line directly away from the spellcaster, even if it is Down.

Proud Defiance | 15 ⛑ | Ability | ELITE only

Retreat would mean submitting to others, an unthinkable act.
You never take Morale Checks if your Warband has at least 1 model with this Goetic Ability on the battlefield.

Too Proud to Fall | 10 ⛑ | Spell (Cost 2) | Praetors & Sorcerers only

The pride of this creature matches that of Morningstar himself. It will never kneel down willingly.
You can cast this spell immediately after the spellcaster is taken Down. If you do so, the spellcaster ignores the Down result and remains standing, but will still suffer any other effects of the Injury Roll or rule that caused them to be taken Down. For example, BLOOD MARKERS from an Injury Roll must be placed next to the model as normal, and if the TOUGH Keyword was used then it cannot be used again during the game, and so on.

Wounded Pride | 10 ⛑ | ELITE only

The utter indignant spite of this creature is a venom that burns those of lesser stature that dare to harm it.
After an attack made by a model without the ELITE Keyword causes any number of BLOOD MARKERS to be placed next to a model with this Goetic Ability, place the same number of BLOOD MARKERS next to the attacking model.

WARBAND VARIANT ARMOURY & BATTLEKIT

Superior Arms: A High Cathedra of Pride Warband can have the following Battlekit. Battlekit with a bullet point [•] is unique to the Court of the Seven-Headed Serpent Warbands and its rules can be found in the Court of the Seven-Headed Serpent Battlekit section. Battlekit with a cross [+] is unique to High Cathedra of Pride Warbands, and its rules can be found below.
In addition, when you recruit a High Cathedra of Pride Warband, you must purchase one Troop Flag and give it to an ELITE model or a Desecrated Saint in the Warband. If the Troop Flag is lost, then a new one must be bought as soon as you have the ⛑ to do so.

Cloak of the Morningstar | 3 | ELITE or Descerated Saint only, Limit: 1

This angelic cloak was burnt and tarnished when Morningstar fell. Those who wear it are incapable of giving ground to their enemies, neither in flesh nor in spirit.

Type	Range	Keywords
Armour	–	–3 INJURY MODIFIER, INNATE

Defiant Rebellion: This model cannot be made to make a forced move. All the other effects of whatever would have caused the forced move to take place still apply. It permanently replaces any other Armour (even if it has the INNATE Keyword) worn by the model and cannot be lost or removed for any reason.

Glorious Light | 20 | Hell Knight or Descerated Saint only, Limit: 2

The armour of these warriors of Pride flares and glitters with impossibly bright shining light, making them hard to even glance at. Even the ritually-blinded Sniper Priest are disturbed by this malignant and prideful glow.

Glorious to Behold: Add -1 DICE to the Success Roll for attacks that target this model.

Laurels of the Supreme | 3 ✳ | Praetor or Sorcerer only, Headgear, Limit: 1

All are Beneath Me: Once during any point of its Activation, if this model has a Line of Sight to at least 1 enemy model that is at least 2" below it, then place 1 BLESSING MARKER next to this model.

Lightbringer Rifle | 40 ⛑ | ELITE only, Limit: 1
The venomous Pride dwelling within this weapon suffers none to stand above it. Its bullets shine with the light of morning, speeding towards any insufferable enemy positioned above it.

Type	Range	Keywords
2-handed	48"	CRITICAL

Pride Comes Before the Fall: Add +3 DICE to the Success Roll for a Ranged Attack made with a Lightbringer Rifle if the target is standing at least 2" higher than the model making the Ranged Attack. In addition, if the Success Roll for a Ranged Attack with a Lightbringer Rifle is a Success or a Critical Success, the target automatically Falls (see Falling rules) if it is within 2" of any ledge, window, door or other space it could fall through. Pick the closest such spot if several are within 2".

Petals of Blood Roses | 5 ⛑ | Wretched of the Court only, Limit: 2
Petals plucked from the poisonous flowers of Hell that grow in the burning gardens tended by the damned. The miserable slaves of the Pride warbands strew these petals at the feet of their enslavers as they advance, all the while extolling the glory of their masters.

Equipment	–	–

Glorious Advance: If a friendly DEMONIC model within 3" of a friendly model with this Battlekit is hit by a Ranged Attack with the BLAST Keyword (direct hit or otherwise), roll 1D6 and move the target of the attack exactly that many inches in a direction of your choice, to a point on the battlefield, on a terrain piece, or on the base of a model. There must be a Line of Sight between the point that is chosen and the original target for the attack. If this is impossible for any reason, treat the attack as a miss, then determine again who is hit as described in the rules for BLAST.

The Golden Seat of Greed

WARBAND VARIANT RECRUITMENT

A Golden Seat of Greed Warband can recruit the following models from the Court of the Seven-Headed Serpent Warband List, with the associated special rules and changes to their Model Limits.

0-1 Praetor: A Golden Seat of Greed Warband must include either a Praetor or a Sorcerer, and it can include both. The total cost of Battlekit equipped by a Praetor in a Golden Seat of Greed Warband must be at least 50 ⛑.
0-1 Sorcerer: A Golden Seat of Greed Warband must include either a Praetor or a Sorcerer, and it can include both. The total cost of Battlekit equipped by a Sorcerer in a Golden Seat of Greed Warband must be at least 50 ⛑.
0-3 Hell Knights: The total cost of Battlekit equipped by a Hell Knight in a Golden Seat of Greed Warband must be at least 50 ⛑.
0+ Wretched of the Court: The number of Wretched of the Court in a Warband must be outnumbered by the number of models with the DEMONIC Keyword.
0-3 Pit Locusts
0+ Yoke Fiends: The total cost of Battlekit equipped by a Yoke Fiend in a Golden Seat of Greed Warband must be at least 50 ⛑. In addition, Yoke Fiends in a Golden Seat of Greed Warband that are not wearing Restraining Muzzles have the Greedy ability:

- **Greedy:** Add –1 DICE to rolls for attacks made by this Yoke Fiend while it is within 3" of another friendly model. In addition, add the ARMOUR PIERCING Keyword to Melee Attacks against enemy models that are worth its Weregild Value or more in ⛑ (including the cost of their Battlekit, etc).

0-1 Desecrated Saint: Desecrated Saints in a Golden Seat of Greed Warband replace the Aura of Sin ability with the Amass Wealth ability:

- **Amass Wealth:** Enemy models within 8" of the Desecrated Saint treat the Weregild Threshold (▸ see below) as half of its normal value. In addition, place 1 BLESSING MARKER next to a friendly model that has at least 3 BLOOD MARKERS, BLESSING MARKERS, INFECTION MARKERS, or SIN MARKERS (in any combination) and Activates within 8" of the Desecrated Saint. Friendly models that Activate within 1" of the Desecrated Saint must resolve this ability before resolving the Desecrated Saint's Totemic ability.

Any Mercenary able to be taken by THE COURT Warbands: A Golden Seat of Greed Warband can have 0-2 Goetic Warlocks instead of 0-1. The first Goetic Warlock to be recruited in a Golden Seat of Greed Warband costs 100 ⓜ instead of its normal cost in ✳, replace the MERCENARY Keyword with the THE COURT, ELITE, and LIMITED POTENTIAL Keywords, can have up to 1 additional Goetic Power, all of their Battlekit gains the INNATE Keyword, and they cannot purchase any additional Battlekit.

SPECIAL RULES

The following special rules apply to a Golden Seat of Greed Warband in addition to those that apply to Court of the Seven-Headed Serpent Warbands.

Avaritian Audit: A Golden Seat of Greed Warband does not have the Mortal Suffering special rule. A game that includes a Golden Seat of Greed Warband has a Weregild Threshold that is set at the beginning of each Turn. When you would place a BLOOD MARKER next to an enemy model that is worth the Weregild Threshold or more in ⓜ (including the cost of their Battlekit, Goetic Powers, etc.) as part of a friendly model with the DEMONIC Keyword's Activation, you can instead place 1 SIN MARKER next to that friendly model. Models without a cost in ⓜ are neither above or below the Weregild Threshold.

Turn	Weregild Threshold
1	100 ⓜ
2	80 ⓜ
3	60 ⓜ
4+	40 ⓜ

Mammonite Trade Network: You may sell 1 piece of Battlekit with a cost in ⓜ for full price in each Quartermaster Step.

The Prince of Greed: A Golden Seat of Greed Warband may choose the Bank of Mammon as their Patron instead of the standard options.

GOETIC POWERS

The following Goetic Powers can be taken by a Golden Seat of Greed Warband in addition to those that can be taken by Court of the Seven-Headed Serpent Warbands.

Body of Gold | 15 ⓜ | Ability | ELITE only, Limit: 1

So great is the devotion of this servant of Greed that their entire body takes on the aspect of the precious metal.

A model with this Goetic Ability has the GOLEM Keyword. In addition, this model loses the TOUGH Keyword if it has it, and it cannot gain the TOUGH Keyword through any other means.

Fool's Reward | 10 ⓜ| Spell (Cost 1) | Sorcerer and Goetic Warlock only, Limit: 1

It is easier for a camel to go through the eye of a needle than for someone who is rich to enter the kingdom of God. Avaritian magi care not for paltry sums of coinage, but they relish the lengths at which mortals squabble for glitter and gold.

You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, the spellcaster can make a Ranged Attack with a Range of 8" that has the FLAMETHROWER and SHRAPNEL Keywords. If the target model was not taken Out of Action, it may choose to fill their pockets. If they do so,

the player that controls the target model immediately adds 10 ⛂ to their Strongbox, then the spellcaster can make an additional Ranged Attack as described above targeting the same model. As long as the target model is not taken Out of Action by an attack caused by Fool's Reward, the target model may choose to continue to fill their pockets after each Ranged Attack is resolved and the model is not taken Out of Action. The second time a model fills their pockets, add 15 ⛂ to their Strongbox, then 20 ⛂ on the third, and so on, increasing the number by 5 ⛂ each time the model chooses to fill their pockets.

Greedy Hearts | 15 ⛂| Spell (Cost 1) | ELITE only

To the servants of Greed, even the temporary splendours of life and the woes of battle are untethered collateral to be seized and hoarded in their miserly hearts.

You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, you may remove up to 6 BLOOD MARKERS, BLESSING MARKERS, INFECTION MARKERS or SIN MARKERS (in any combination) from models (friend or foe) within 3" of the spellcaster that are above the Weregild Threshold, and place an equal number of each marker removed next to the spellcaster.

Each trigger pull gives these twin-barrel shotguns their name, unloading a spray of chiming ducat-shot and shredding flesh with auric violence.

Coin Song: When a model uses a 40-Bore Ring Gun to make 2 Ranged Attacks during a Shoot ACTION, place 1 BLESSING MARKER next to the model if the result of the Success Rolls for both Ranged Attacks were a Success or Critical Success.

Esau's Bargain | 5 ✳ | ELITE only, Limit: 1

You can, in fact, buy time. The Bank of Mammon can satisfy a desperate plea for eternal life, stitching an Infernal contract into the crown of the lessee with coarse hairs tinged red with the blood of debtors. When invoked, this pact can close wounds and even prevent mortal injury. However, as each second of life is earned, another second of memory is extracted by the contract and archived into the Prince of Greed's ever-expanding sentimentuaries.

Of the Field: Double the amount of Experience Points a model with Esau's Bargain gains during the Promotions & Experience Step.

Mnemoharvest: After rolling on the Trauma Chart for a model that has at least 1 Skill and Esau's Bargain, you may choose to treat the result as Full Recovery instead. If you do, pick 1 Skill the model has and remove it from your Warband Roster.

Herodic Hammer | 15 ⛂ | ELITE only, Limit: 2

The plundered golden finery of felled monarchs has been melted down and fashioned into a sledge-head reminder of Hell's authority. Herodic hammers are wielded by despotic warriors to stratify the battlefield, crushing unworthy foes under their tyrannic weight.

Type	Range	Keywords
2-Handed	Melee	+1 INJURY MODIFIER, CUMBERSOME, HEAVY

Beneath Me: Add +1 INJURY DICE to Injury Rolls made by a Herodic Hammer against enemy models that are worth less in ⛂ than the attacking model (including the cost of their Battlekit, Goetic Powers, etc.).

Press Down: If an enemy model without the ELITE Keyword and mounted on a base of 32mm or less is hit by a Melee Attack with a Herodic Hammer and not taken Out of Action, you can immediately make a second Melee Attack against the same model with a Herodic Hammer. The second Melee Attack does not generate additional attacks this way.

Queen's Bones | 5 ⏲ | Wretched of the Court only
Scores of clerical scribes and chattel computation devices are required to account for and organize Mammon's ever-expanding hoards. These mortal servants are brought to battle as field actuaries, often bearing grotesque body modifications to assist in their services. Some are given extended digits so they may count the knuckles of a dozen joints; others have their ribs exposed and adorned with obsidian beads to operate like a living abacus.

Type	Range	Keywords
Equipment	–	–

Indentured Computation: Add +1 DICE to rolls for attacks against models that are worth the Weregild Threshold or more made by friendly models that are within 1" of a model carrying Queen's Bones.

Stolen Sentimentality | 12 ⏲| Limit: 4
Avaritian warriors often display small cages and glass jars filled with objects of incongruous value: childhood toys, a lover's perfume, a faded daguerreotype. Collected from the clutches of those who perished in their desperate plea for comfort, the gestalt power of these nostalgic keepsakes project a barrier of sentimentality that can deflect blade and bullet.

Type	Range	Keywords

Kill Your Darlings: Injury Rolls caused by an attack made with a weapon with the IGNORE ARMOUR Keyword ignore the effects of Stolen Sentimentality.

- **Mutual Satisfaction:** This model can take a Wrack with Pain ACTION if they are within 1" of an Altar of Torment even if they do not have the DEMONIC Keyword. In addition, add +2 DICE to the Success Roll when this model takes a Torture ACTION using a Torture Instrument, and BLOOD MARKERS next to it cannot be used to add -DICE to the Success Roll when they take a Torture ACTION.

- **Penetrating Gaze:** Enemy models cannot add –INJURY MODIFIERS to Injury Rolls made for them whilst they are within 4" of this Desecrated Saint, unless the -INJURY MODIFIER comes from a piece of Battlekit that has the IMPERVIOUS Keyword, or the model itself has the IMPERVIOUS Keyword.

Any Mercenary able to be taken by THE COURT Warbands

SPECIAL RULES

The following special rules apply to a Flesh Divan of Lust Warband in addition to those that apply to Court of the Seven-Headed Serpent Warbands.

Vetiti Voluptas: A Flesh Divan of Lust Warband does not have the Mortal Suffering special rule, and SIN MARKERS on friendly models can be spent to fuel Goetic Spells even if that model does not have the DEMONIC Keyword. When an ACTION taken by a friendly model would cause you to place 2 or more BLOOD MARKERS next to another friendly model, you can instead only place 1 BLOOD MARKER next to that model and place 1 SIN MARKER next to the friendly model taking the ACTION.

GOETIC POWERS

The following Goetic Powers can be taken by a Flesh Divan of Lust Warband in addition to those that can be taken by Court of the Seven-Headed Serpent Warbands.

Call of the Flesh | 15 | Spell (Cost 2) | Praetors & Sorcerers only

None can resist the call of Lust.

You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, the spellcaster's Activation immediately ends and the first ACTION taken by the next model your opponent Activates must be a Move, Charge or Retreat. In addition, when your opponent moves the model, it must end the move as close to the spellcaster as possible, taking a Retreat ACTION if it Activates within 1" of an enemy model, and taking a Charge ACTION if it Activates within 12" and in Line of Sight of the spellcaster. If the model must move through Dangerous terrain, or Climb, Jump, or Jump Down, to get as close to the spellcaster as possible, then it must do so. After taking the Move, Charge or Retreat ACTION the model can carry out other ACTIONS normally, with the exception that it cannot choose the spellcaster as the target for a Ranged or Melee attack for the rest of the Turn.

Exquisite Pain | 15 | Spell (Cost 1-3) | ELITE only, Limit: 3

Pain and pleasure are but two sides of the same coin. This is the wisdom of the Sin of Lust.

You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, pick a model that is in the spellcaster's Line of Sight (friend or foe). Place a number of BLOOD MARKERS equal to the number of SIN MARKERS paid to cast the spell next to the model that you picked.

Forbidden Pleasures | 10 | Ability | Praetors & Sorcerers only

The unspeakable things done to the poor slave of the fiends are best left unsaid.

You can use this Goetic Ability at the start of each game, before deployment. For each model in your Warband that has this Goetic Ability, pick a model from your Warband that does not have the DEMONIC Keyword. Place 3 BLOOD MARKERS and 3 SIN MARKERS next to each model that you pick when you deploy them.

One of Asmodeus's personal favourites is that of gambling, and so many that earn their favour are gifted with a set of dice known as astrágaloi, wrought from the knucklebones of King David, the rubble of Sodom, or the calcified herpetic sores of innumerable "holy" men.

Tempt Fate ACTION: Once per game, a model with this Battlekit can take a Tempt Fate ACTION. To do so, target one enemy model within 6" of the model taking the Tempt Fate ACTION. The opponent in control of the target model must make one of three bets: less than 7, exactly 7, or more than 7. Then roll 2D6, add the numbers on both dice together and compare them to the bet your opponent made.

- If your opponent bet on less than 7 or more than 7 and was correct, place 1 SIN MARKER next to the model taking the Tempt Fate ACTION. If they were incorrect, place 1 SIN MARKER next to the

Horn of Luxuria | 30 ⛑ | ELITE only, Limit: 1

The layer of Hell devoted to Lust is one of beautiful music, of drumbeats syncopated to the pulsing of hearts and hips, of tones and microtones that match the resonant frequency of flesh and bone, of deep and profound honesty with the darkest and most ruinous of desires. One of the many instruments invented in this realm and brought to the surface is the horn of Luxuria, a flute-like instrument worn on the body that, when played, heightens the sensitivity of nearby mortal bodies exponentially.

Black Serenade: When a model in a Flesh Divan of Lust Warband takes a Dash ACTION while a model with this Battlekit is on the battlefield, it can spend 1 SIN MARKER as if it were casting a Goetic Spell. If it does so, add +1 DICE to the Risky Success Roll for the Dash.
Rapt in Pleasure: Enemy models without the ARTIFICIAL Keyword that are Down must make a Success Roll to stand up if within 4” of a model with the Horn of Luxuria.

Lance of Asmoday | 30 ⛑ | Hell Knights & Desecrated Saint only

Modelled after the wicked banner-lance held by the Serpent Head of Lust and Monarch of Lechery, the lances of Asmoday are slender thorns of onyx inlaid with numerous grooves and ridges. Once hurled, they sing as they fly through the air, emitting sublime drones and wails that release the inhibitions of all in earshot. As they hit their mark, this aria reaches a crescendo so intense that the overwhelmed audience are confronted with a profound realisation: life is too short to avoid seeking what you want.

Yours to Take: If a Ranged Attack made with a Lance of Asmoday is a Success, before making the Injury Roll, you can make a forced move with the target model of up to D6” in a straight line, but you must move it so that it finishes the move as close as possible to the attacking model. If the model must move within 1” of an enemy, make a retreat move, move through Dangerous terrain, or Climb, Jump, or Jump Down, to get as close to the attacking model as possible, then it must do so. The model cannot make a Diving Charge.
New Sensations: If a Ranged Attack made with a Lance of Asmoday is a Critical Success, enemy models within 2” of the target enemy model (including the target) are taken Down.

Naamahrite Scourge | 20 ⛑ | ELITE only, Limit: 3

The truth known by the many incubii and succubii who serve the Flesh Divan of Lust is that temptation cannot be planted – the mortal soul must already foster a wish for it to be craved. One such common craving is the desire to be no less than truly and fully overpowered, to be freed from the responsibilities of one’s own body and reputation.

As the Tyrant Made Us: If an Attack made with a Naamahrite Scourge is a Success or a Critical Success, the player controlling the target model can choose to add the IGNORE ARMOUR Keyword to the Injury Roll for that model. If they do so, the Minor Hit result for this Injury Roll counts as the No Effect result. If they do not, place 1 SIN MARKER next to the attacking model.

Spoils of Lust | 5 ⛑ | Wretched of the Court only

Unlike most Wretched, those indentured to serve the Serpent Throne of Lust do so with a sadism rivalling their own slavemasters. Many adorn themselves with barbed iron corsets, hooked harnesses, or a proud array of sores and lesions earned from their foul revelry.

The Black Klismos of Envy

WARBAND VARIANT RECRUITMENT

A Black Klismos of Envy Warband can recruit the following models from the Court of the Seven-Headed Serpent Warband List, with the associated special rules and changes to their Model Limits.

2-5 Hell Knights: At the start of each Turn, before any models are Activated, place 1 SIN MARKER next to the friendly Hell Knight with the fewest SIN MARKERS. If multiple friendly Hell Knights are tied for fewest SIN MARKERS, you may choose one of the Hell Knights that are tied to gain the SIN MARKER. In addition, whenever 2 or more Hell Knights are a part of your Warband, add the Petty Noble Glorious Deed to those normally available in each scenario you play:

- **Petty Noble:** A 6th SIN MARKER is placed next to a friendly Hell Knight.

0-1 Hunter of the Left-Hand Path

0+ Wretched of the Court: The number of Wretched of the Court in a Warband must be outnumbered by the number of models with the DEMONIC Keyword.

0-3 Pit Locusts

0+ Yoke Fiends: Yoke Fiends in a Black Klismos of Envy Warband that are not wearing Restraining Muzzles have the Envious ability:

- **Envious:** When this Yoke Fiend takes a Dash ACTION, it must end the move as close as possible to an enemy model that was visible at the start of the move. The Yoke Fiend must move by the shortest route available that takes it directly towards an enemy model. Climbing, Jumping, Jumping Down or moving through Dangerous terrain is optional during this move, as long as the route you use to avoid the obstacles is as short as possible. The Yoke Fiend cannot move within 1" of any enemy models as normal. If no enemy models are visible, it can move normally. In addition, BLOOD MARKERS cannot be spent to add –DICE to Melee Attacks made by a Yoke Fiend if there is another friendly Yoke Fiend within 1".

0-2 Desecrated Saints: Iron Maiden Flails purchased for a Desecrated Saint cost 40 ⓿ (they do not cost any ✳) and have the FIRE and INNATE Keywords. In addition, Desecrated Saints in a Black Klismos of Envy Warband can have a Usurper's Saw-Wire, and they replace the Aura of Sin ability with the Maw of Comparison ability:

- **Maw of Comparison:** The following rules apply to enemy models that are within 6" of a model with this ability.
    - They cannot select an enemy model that is within 1" of another friendly model as the target of a charge.
    - They do not treat enemy models that are within 1" of another friendly model as interposing enemy models when attempting to charge.
    - When making a charge move, they do not trigger free strikes from enemy models that are within 1" of another friendly model.

Any Mercenary able to be taken by THE COURT Warbands

SPECIAL RULES

The following special rules apply to a Black Klismos of Envy Warband in addition to those that apply to Court of the Seven-Headed Serpent Warbands.

Envious Eyes: When you create a Black Klismos of Envy Warband, you can add 2 different pieces of Battlekit that have a cost in ⓿to your Armoury from the New Antioch, Trench Pilgrims, Iron Sultanate, or Heretic Legions Armouries. These pieces of Battlekit have any stipulations that applied to them from the Armoury Table they were taken from (so there is little point in taking the Assassin's Dagger, for example, as it can only be used by Sultanate Assassins), but also gain the Hell Knights only stipulation. These 2 pieces of Battlekit cannot be sold or reallocated in the Quartermaster Step, and you can repurchase them later during the campaign if they are lost for any other reason.

Potestas Negata: A Black Klismos of Envy Warband does not have the Mortal Suffering special rule. When a friendly model takes an enemy model Down or Out of Action, place 1 SIN MARKER next to all other friendly models with the DEMONIC Keyword within 6" of that friendly model.

GOETIC POWERS

The following Goetic Powers can be taken by a Black Klismos of Envy Warband in addition to those that can be taken by Court of the Seven-Headed Serpent Warbands.

Coveted Position | 10 ◓ | Spell (Cost 2) | ELITE only, Limit: 2
The burning jealousy and envy of those in better position in life allows the caster of this spell to instantly change places with whomever they envy.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, pick a model (friend or foe) that is within 12" of the spellcaster, in its Line of Sight, and is more than 1" away from any other models. You can then swap the position of the two models. You must redeploy each model so that the centre of their base is at the location that was previously occupied by the centre of the base of the model they are swapping positions with. If this is impossible for any reason (e.g. because Impassable terrain or another model gets in the way), the two models remain in their original locations. Note that the spellcaster can cast this spell even if they are within 1" of an enemy model (in which case the enemy model cannot make a free strike before the spellcaster's position is swapped), and can redeploy within 1" of an enemy model. Likewise, the target can be redeployed within 1" of a friendly model.

Meat Shield | 15 ◓ | Ability | ELITE only, Limit: 1
The bitterness of this creature far outweighs its pride.
If a model with this Goetic Ability that is within 1" of a friendly Wretched of the Court model is hit by a Ranged Attack or Melee Attack, you can say that the Wretched of the Court will take the hit. If you do so, make an Injury Roll for the Wretched of the Court instead of the original target. This ability cannot be used against attacks that would hit multiple models simultaneously, such as attacks that have the BLAST Keyword, or an attack made by a Flame Cannon.

What is Yours is Mine | 10 ◓ | Spell (Cost 1-3) | ELITE only
The caster of this spell cannot bear another to possess that which it lacks, and bends reality to its will to sate its jealousy.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, you can remove an equal number of BLOOD MARKERS, BLESSING MARKERS or SIN MARKERS (in any combination) from a model in the spellcaster's Line of Sight (friend or foe) and place it next to the spellcaster.

Brand of Moloch | 10 | ELITE only

Moloch, the Infanticide King, has tempted thousands of human cultures into his worship through the offering of child sacrifices in exchange for a good harvest or the steady collection of capital. Those that follow him may attempt to invoke Moloch's power to fuel Goetic magics, by sacrificing one of the oft-infantile Wretched that accompany Envy's warbands.

Type	Range	Keywords
Equipment	–	–

Infanticide ACTION: A model with a Brand of Moloch that is within 1" of a friendly Wretched of the Court can take an Infanticide ACTION. If it does so, pick one friendly Wretched of the Court model within 1" and take it Out of Action. The next Goetic Spell this model casts during this Activation does not cost any SIN MARKERS to cast. Spells with a variable cost (i.e. 1–3) are automatically cast at their maximum cost.

Craven Vassalage | 5 | Hell Knight only, Limit: 1

The freeing of Leviathan at the Carcass Front caused ripples across the Underworld's ornate and obtuse government, nowhere more so than amongst those demons that form Invidia's Court. The constant struggle for power amongst Envy's Hell Knights led many of them to pledge vassalage to the current Serpent Head, Moloch, or the rightful usurper Leviathan in a desperate attempt to be noticed. Not unaware of this struggle, both Moloch and Leviathan offer a simulacrum of power in exchange for their pledged fealty, allowing a Hell Knight to be reshaped as some imitation of the Praetors and Sorcerers of the other Deadly Sins.

Type	Range	Keywords
Special	–	INNATE

Agent of Change: When a Craven Vassalage is purchased, it must be allocated to one model. Then, choose one of the following Abilities.

Pledged to Leviathan: This model has the Beacon of Corruption Ability (▸ see the Praetor Warband Entry.)

Pledged to Moloch: This model knows the Burning Inferno Goetic Spell (▸ see the Sorcerer Warband Entry). This does not count towards the maximum number of Goetic Powers this model can have.

A Simulacrum of Power: A model with a Craven Vassalage increases their base size to 50mm and gains the FLYING Keyword, and its Movement Characteristic is changed to 6"/Flying.

Lying Knife | 12 ⏲ | ELITE only

Knapped stone harvested from the rapidly eroding dwellings of Envy, the blades known as lying knives are possessed of the same transformative desire as those that wield them. However, as if to accentuate the incompetence of the wielder, a lying knife is truly able to become better.

Type	Range	Keywords
1-Handed	Melee	+1 INJURY MODIFIER, RISKY

Mercurial Blade: When a model makes a Melee Attack with a Lying Knife, pick one Melee Weapon equipped by the target enemy model. Add one Keyword that is present on the picked Melee Weapon to this Melee Attack. Keywords added this way last only for that Melee Attack, and are cumulative with the Keywords the Lying Knife already has.

Pyrite Mirror Pavise | 30 ⏲ | Hell Knight only, Limit: 1

These heaving slabs of unrefined infernal iron are coated with rune-laden pyrite and polished obsessively by Envy's Hell Knights, in the hopes that they will eventually see something beautiful in its mirror sheen. Alas, the only thing that stares back is a mocking, asinine reflection.

Type	Range	Keywords
Shield	–	–1 INJURY MODIFIER

Mocking Reflection ACTION: A model with a Pyrite Mirror Pavise can take a Mocking Reflection ACTION. If they do so, they can immediately take an ACTION that is on the Warband Entry of an enemy model within 1" as if it were on their own Warband Entry (this includes Goetic Powers, or ACTIONS given by Skills, but not those granted by Battlekit). If they do so, replace any references to the name of that enemy model with Hell Knight (e.g. a friendly Hell Knight that takes a Mocking Reflection ACTION within 1" of an enemy Lieutenant can take a Hold Your Fire! ACTION, replacing all references to "Lieutenant" with "Hell Knight", and you pick 1 enemy model within the Hell Knight's Line of Sight that the opponent is allowed to Activate. The Hell Knight's Activation then ends, and the opponent must Activate the model you picked.)

Usurper's Saw-Wire | 10 ⏲ | Hell Knights & Desecrated Saints only

Off with their undeserving head.

Type	Range	Keywords
Equipment	–	–

De-Coronate ACTION: Once during a game, a model with a Usurper's Saw-Wire can use it to make a Melee Attack when taking a Fight ACTION, instead of using any of its Melee Weapons. Add +2 INJURY DICE to Injury Rolls for this attack if the target has the ELITE Keyword or is on a base size equal to or larger than the attacking model.

Bitterly Unsatisfying: If a De-Coronate ACTION takes an enemy model Out of Action, place 2 SIN MARKERS next to the attacking model.

The Hungering Throne of Gluttony

WARBAND VARIANT RECRUITMENT

A Hungering Throne of Gluttony Warband can recruit the following models from the Court of the Seven-Headed Serpent Warband List, with the associated special rules and changes to their Model Limits.

0-1 Praetor: A Hungering Throne of Gluttony Warband must include either a Praetor or a Sorcerer, and it can include both.

0-1 Sorcerer: A Hungering Throne of Gluttony Warband must include either a Praetor or a Sorcerer, and it can include both.

0-3 Hell Knights: A Hungering Throne of Gluttony Warband can have 0-3 Hell Knights or Sin Eaters (and can have a mix of the two).
0-1 Hunter of the Left-Hand Path
0+ Wretched of the Court: The number of Wretched of the Court in a Warband must be outnumbered by the number of models with the DEMONIC Keyword.
0-4 Pit Locusts: Pit Locusts in a Hungering Throne of Gluttony Warband can have the Eater of the Flesh Goetic Power.
0+ Yoke Fiends: Yoke Fiends in a Hungering Throne of Gluttony Warband that are not wearing Restraining Muzzles have the Gluttonous ability:

- **Gluttonous:** This Yoke Fiend cannot take a Retreat ACTION if one or more enemy models within 1" of it have any number of BLOOD MARKERS next to them. In addition, this Yoke Fiend adds +1 INJURY DICE to Injury Rolls for its Melee Attacks if the target is Down or has a smaller base size than its own.

0-1 Desecrated Saint: Desecrated Saints in a Hungering Throne of Gluttony Warband have the Seek Exploration Skill (even if they are not ELITE), and replace the Aura of Sin ability with the Leeching Presence ability:

- **Leeching Presence:** When this Desecrated Saint is in contact with a terrain piece that measures up to 8" by 8", add –1 DICE to Success Rolls taken by enemy models in contact with the same terrain piece.

Any Mercenary able to be taken by THE COURT Warbands: A Hungering Throne of Gluttony Warband can have 0-3 Hell Knights or Sin Eaters (and can have a mix of the two). Sin Eaters in a Hungering Throne of Gluttony Warband cost 140 ⓟ instead of their normal cost in ⊛, replace the MERCENARY Keyword with the THE COURT, ELITE, and LIMITED POTENTIAL Keywords, can have up to 1 Goetic Power, all of their Battlekit gains the INNATE Keyword, and they cannot purchase any additional Battlekit.

SPECIAL RULES

The following special rules apply to a Hungering Throne of Gluttony Warband in addition to those that apply to Court of the Seven-Headed Serpent Warbands.

Conspicuous Consumption: At the start of the first Turn, place 2 SIN MARKERS next to the model in your Warband with the highest total cost in ⓟ (including the cost of their Battlekit, Goetic Powers, etc.)
Omnia Devoranda: A Hungering Throne of Gluttony Warband does not have the Mortal Suffering special rule. If a friendly model with the DEMONIC Keyword takes another model (friend or foe) Down, place 1 SIN MARKER next to it. In addition, the first time each Activation that a friendly model with the DEMONIC Keyword makes a Melee Attack targeting a model that is Down, place 1 SIN MARKER next to the attacking model.
Overindulgence: When you would spend any BLOOD MARKERS next to enemy models, you must spend the maximum amount possible.
Starving Masses, Indolent Elites: Models in a Hungering Throne of Gluttony Warband that do not have the ELITE Keyword add +1 DICE to the Risky Success Roll when they take a Dash ACTION. Models in a Hungering Throne of Gluttony Warband that have the ELITE keyword gain the BLOCK Keyword, and have a Charge Bonus of D3" instead of D6".

GOETIC POWERS

The following Goetic Powers can be taken by a Hungering Throne of Gluttony Warband in addition to those that can be taken by Court of the Seven-Headed Serpent Warbands.

Belly of the Beast | 5 ⓟ | Ability | ELITE only

This creature is known to feast on vast mounds of flesh before it leaves Hell. If it is wounded in battle, its opponents suffer agonizing acidic burns as the contents of its guts gush all over them.

After a Melee Attack targeting a model with this Goetic Ability causes any number of BLOOD MARKERS to be placed next to it, place 1 BLOOD MARKER next to the attacking model.

Eater of the Flesh | 10 ⓟ| Ability | ELITE & Pit Locusts only, Limit: 3

An unnatural hunger for flesh haunts this creature. Whenever mortal blood is spilled, this demonic entity feeds through tears in the fabric of reality, gorging itself on viscera and guts.

After a Melee Attack made by a model with this Goetic Ability causes any number of BLOOD MARKERS to be placed next to a target model that does not have the BLACK GRAIL or DEMONIC Keywords, remove the same number of BLOOD MARKERS from the attacking model. If the target model is taken Out of Action, remove up to 3 BLOOD MARKERS from the attacking model instead.

Uncaring Gluttony | 10 | Spell (Cost 2) | ELITE only, Limit: 1

This curse drives its target mad with an unnatural hunger, making them heedless of any danger as they seek to consume any matter they now perceive as edible.

You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, pick 1 enemy model that has not yet been Activated this Turn and pick one piece of Equipment that the model has (note its Type must be Equipment, not Weapon or Special and so on). Equipment that has the CONSUMABLE Keyword cannot be picked if it has been used in this game, and Equipment that has the DEPLOYABLE Keyword cannot be picked if it is more than 1" away from the model. The model chews on the Equipment, rendering it unusable for the rest of the game.

WARBAND VARIANT ARMOURY & BATTLEKIT

Hell's Cutlery: A Hungering Throne of Gluttony Warband can have the following Battlekit. Battlekit with a bullet point [•] is unique to the Court of the Seven-Headed Serpent Warbands and its rules can be found in the Court of the Seven-Headed Serpent Battlekit section. Ravening Jaws: A model with a Jawed Bascinet has the REGENERATE 3 Keyword while within 1" of any enemy models.

Lanx Ciborum Exquisitorum | 8 | ELITE only, Limit: 1

Type	Range	Keywords
Equipment	–	HELD, REGENERATE 6

Irresistible Delights: Success Rolls taken for enemy models without the BLACK GRAIL or DEMONIC Keywords within 8" of a model with the Lanx Ciborum Exquisitorum become Risky Success Rolls (there is no additional effect if they are Risky Success Rolls already). In addition, when a model with the Lanx Ciborum Exquisitorum Activates, all models within 8" that do not have the BLACK GRAIL or DEMONIC Keywords must make a forced move of 3" directly towards it. If the model must move within 1" of an enemy, make a retreat move, move through Dangerous terrain, or Climb, Jump, or Jump Down, to get as close to the attacking model as possible, then it must do so. The model cannot make a Diving Charge.

Meaty Cleaver | 25 | Limit: 3

Notched, wet and blood-encrusted this huge blade appears fit only for a butcher. Despite its crude appearance it carves quivering chunks of flesh from its victims with unearthly ease.

Type	Range	Keywords

Ostentatious Ornamentation | 15 | LEADER only, Headgear, Limit: 1

Outrageous headgear is often worn by the leader of the warband to mark it as first and greatest among the voracious appetites present. It lends the wearer stolen power enough to command the very ground beneath their feet to yield to their outrageous excesses.

Type	Range	Keywords
Equipment	–	–

Part a Path: While a model with Ostentatious Ornamentation is in contact with a terrain piece that measures up to 8" by 8" and does not have the IMPASSABLE TERRAIN Keyword, enemy models treat that terrain piece as Difficult terrain, and friendly models treat it as Open terrain.

Tawdry Finery | 45 ⓿ | ELITE only, Limit: 1
Whilst lacking the deep needs of Greed or Envy to accumulate material wealth, the glutton still makes peacocking displays of authority and success to legitimise their overindulgence. Glass for gems, cheap metal plated to appear valuable, stolen furs and grotesque false colours all serve to maintain the appearance of power in order to exploit the gullible.

Type	Range	Keywords
Equipment	–	–

Most Conspicuous: A model with Tawdry Finery counts as having the highest ⓿ cost for the purpose of the Conspicuous Consumption special rule. In addition, add -1 DICE to Success Rolls for Ranged Attacks that target friendly models within 3" of a model with Tawdry Finery.

With alacrity born out of sheer rage, this creature can move at a startling speed.
Add +1 DICE to the Risky Success Roll for a model with this Goetic Ability that is taking a Dash ACTION.

Charge of Hatred | 10 ◓ | Ability | ELITE only, Limit: 3
There is virtually no escape from the hatred of this creature.
When a model with this Goetic Ability takes a Charge ACTION, it does not gain a Charge Bonus (do not roll), but it counts as having Movement Characteristic of 12" for the charge move. In addition, if a model with this Goetic Ability declares an enemy model other than the closest enemy model in Line of Sight as the target of the charge, you must immediately take a Risky Success Roll for the model before making the charge move. If the roll is a Success or a Critical Success, it can carry out the charge move normally.

Undo Creation | 30 ◓ | Spell (Cost 3) | ELITE only, Limit: 1
The Serpent Head of Wrath yearns for only one thing: to see all that the Tyrant-God has made bathed in hellfire.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, pick 1 terrain piece that is within 12" of the spellcaster, in its Line of Sight, and that measures up to 8" by 8". That terrain piece gains the DANGEROUS TERRAIN (FIRE) Keyword for the rest of the game.

Hellfire burns both the longest and hottest in the domains of Wrath. Those that pledge their violent loyalty to Apollyon are often left permanently smouldering by her very presence.

Type	Range	Keywords
Equipment	–	FIRE

Undying Fire: A model with Apollyon's Ember adds the FIRE Keyword to all Melee Attacks it makes.

Lesser Mark of Cain | 25 | ELITE only, Limit: 1

An inferior copy of the mark that the Tyrant-God YHWH placed on the forehead of Cain, the First Murderer.

Type	Range	Keywords
Equipment	–	–

Murderer: A model with the Lesser Mark of Cain has the –1 INJURY DICE Keyword.

Locust Gait | 10 | Hell Knights only

The knights of Ira have each spent eons in the Great Pit of Apollyon, submerged amidst the hacking limbs and chittering maws of Pit Locusts. Many of those that make it out only do so by imitating the Locust's movements.

Type	Range	Keywords
Equipment	–	FLYING

Imitation Flight: Change the Movement Characteristic of a model that has the Locust Gait to 6"/Flying.

Ruinous Pernach | 15 | Limit: 3

This hefty mace has its bladed flanges inscribed with runes of hatred and ruination, causing it to crush and rend the armour of whoever or whatever it touches.

Type	Range	Keywords
2-Handed	Melee	+1 INJURY MODIFIER, HEAVY

Crushed Plate: If the first Melee Attack a model makes during its Activation uses the Ruinous Pernach, add the ARMOUR PIERCING Keyword to each subsequent Melee Attack it makes against the same target during that Activation.

Spear of Apollyon | 6 | ELITE only, Shield Combo, Limit: 1

This monstrous polearm is formed of still-glowing iron and tempered in the blood of the Fallen. In the clawed hands of one devoted to the Iron Curule of Wrath, it can be swung with such force that it ruptures the very fabric of Creation.

Type	Range	Keywords
2-Handed	Melee	+2 INJURY DICE, BLOCK, CUMBERSOME, FIRE

Rend the World ACTION: A model with a Spear of Apollyon can take a Rend the World ACTION instead of taking a Fight ACTION during its Activation. If it does so, measure a straight line 1mm wide and up to 12" long from the model taking the Rend the World ACTION to a point on the battlefield, on a terrain piece or a model's base that is also in its Line of Sight. Then, remove any number of SIN MARKERS from friendly models, and roll a number of D6 equal to the number of SIN MARKERS removed. Choose one rolled D6, then pair it with one model (friend or foe) that is touched by the line (including the attacking model), and place a number of BLOOD MARKERS next to them equal to the result of the chosen D6. Repeat this for every rolled D6 until you either run out of dice, or until every model touched by the line has been paired with a rolled D6. Note that at least one rolled D6 must be paired with the attacking model.

The Silk Bed of Sloth

WARBAND VARIANT RECRUITMENT

A Silk Bed of Sloth Warband can recruit the following models from the Court of the Seven-Headed Serpent Warband List, with the associated special rules and changes to their Model Limits.

0-1 Praetor
1 Sorcerer
0-3 Hell Knights: Hell Knights in a Silk Bed of Sloth Warband have the Witch Knight ability:

- **Witch Knight:** This Hell Knight can have an additional Goetic Power, and has a Ranged Characteristic of +1 DICE.

0-1 Hunter of the Left-Hand Path: Hunters of the Left-Hand Path cost 5 ⊛ to recruit for a Silk Bed of Sloth Warband (they do not cost any ⛑).
0+ Wretched of the Court: The number of Wretched of the Court in a Warband must be outnumbered by the number of models with the DEMONIC Keyword.
0-3 Pit Locusts
0+ Yoke Fiends: Yoke Fiends in a Silk Bed of Sloth Warband that are not wearing Restraining Muzzles have the Slothful ability:

- **Slothful:** This Yoke Fiend cannot take more than 2 ACTIONS in a single Activation. In addition, add +1 DICE to Melee and Ranged Attacks made by this Yoke Fiend if the target has Activated this Turn.

0-1 Desecrated Saint: Desecrated Saints in a Silk Bed of Sloth Warband can use one of the hands used to have a 1-Handed Melee Weapon to instead have a Desidian Matchlock, and replace the Aura of Sin ability with the Soporific Smog ability.

- **Soporific Smog:** Enemy models within 8" of this Desecrated Saint treat Minor Hit results as Down results. This ability affects enemy models that normally treat Down results as a Minor Hit result (such as models wearing Machine Armour).

Any Mercenary able to be taken by THE COURT Warbands

SPECIAL RULES

The following special rules apply to a Silk Bed of Sloth Warband in addition to those that apply to Court of the Seven-Headed Serpent Warbands.
Taedium Operandi: A Silk Bed of Sloth Warband does not have the Mortal Suffering special rule. Once per Activation, when a friendly model with the DEMONIC Keyword would make a Success Roll, you can change it into a Risky Success Roll and place 2 SIN MARKERS next to that friendly model.

Morphean Mind: During the Initiative Phase of each Turn, when you would have the Initiative, you can decide to give the Initiative to your opponent. If you do so, choose one of that opponent's models on the battlefield. The chosen model cannot be the first model your opponent chooses to Activate this Turn.

GOETIC POWERS

The following Goetic Powers can be taken by a Silk Bed of Sloth Warband in addition to those that can be taken by Court of the Seven-Headed Serpent Warbands.

Charm of Acedia | 15 ◓ | Spell (Cost 1) | ELITE only
The surest way to succeed is to not even try.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, the next Success Roll or Risky Success Roll taken for the spellcaster this Activation is automatically a Success (do not roll any dice).

Daemonium Meridianum | 20 ◓ | Ability | ELITE only, Limit: 1
It is impossible to approach this infernal warrior with any energy or enthusiasm.
Enemy models treat Open or Dangerous terrain within 6" of a model with this Goetic Ability as if it had the DIFFICULT TERRAIN Keyword.

Dispassionate Gaze | 15 ◓ | Spell (Cost 1) | Hell Knights only
So oppressive is the melancholic presence of the knights of Acedia that even a simple action feels cataclysmically hollow.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell. If you do so, target one enemy model within 12" and in Line of Sight of the spellcaster. Place 1 BLOOD MARKER next to the target model, or place 2 BLOOD MARKERS next to the target model if they have already Activated this Turn.

Entropy's Arrow | 15 ◓ | Spell (Cost 2) | ELITE only, Limit: 3
Urgency is a trap laid for those who lack perspective.
You must take a Cast Spell ACTION with the spellcaster in order for it to cast this spell, and it must be the first ACTION the spellcaster takes during its Activation. If it does so, end this model's Activation immediately. Then, after all other friendly models have Activated this Turn, you may Activate this model as if it hadn't already Activated. If more than one friendly model casts this spell during a Turn, choose which model that has cast this spell to Activate, continuing to alternate Activations with your opponent as normal.

Campaign Glory Item

+ Iscariot's Rope	ELITE only, Limit: 1	4

Desidian Matchlock | 10

One of the many inventions of Belphagor designed to foster the insidious grip of 'convenience' in mortals. To best harness this power, the desidian matchlock eschews the inconvenient need for training, becoming more deadly in the hands of a being bereft of effort.

Type	Range	Keywords
1-Handed	12"/Melee	PISTOL

Half-Cocked: Add +1 INJURY MODIFIER to rolls made for this weapon if the target has Activated this Turn.

Flower of Lytos | 15 | ELITE only, Limit: 1

The Isle of Lytos was once home to an Acedian cult known as the Lotus Eaters. The flower from which they earned their name is a powerful spiritual opioid in mundane circumstances. However, when it is cultivated in soil watered with the blood of those who took their lives in apathetic despair, its consumption can numb even the laws of spatial reality.

Type	Range	Keywords
Equipment	–	CONSUMABLE

Lotus Eater: A model with a Flower of Lytos can use it to eat some of its Flower of Lytos when it takes a Charge ACTION. If it does so, after you roll the Charge Bonus, do not move the charging model. Instead, the target of the charge makes a forced charge move a number of inches up to its Movement Characteristic and the rolled Charge Bonus, with the model eating the Flower of Lytos as the target. If the model must move within 1" of an enemy, make a retreat move, move through Dangerous terrain, or Climb, Jump, or Jump Down, to get as close to the model eating the Flower of Lytos as possible, then it must do so. The model eating the Flower of Lytos still counts as charging for the purposes of other rules (e.g. the BLOCK Keyword, any Glorious Deeds, etc.).

Iscariot's Rope | 4 ✳ | ELITE only, Limit: 1

Whilst each of the seven Serpent Heads lay claim to Judas's betrayal, it was Iscariot's spiritual apathy that saw him follow the path of self-annihilation rather than seeking the Tyrant-God's forgiveness. Carrying but a sliver of the rope Judas used to take his own life, a demon of Sloth can unsummon themselves back to Hell should failure seem inevitable.

Type	Range	Keywords
Equipment	–	CONSUMABLE

Unsummon: A model with Iscariot's Rope can use it to Unsummon itself at any point during the game between ACTIONS, including during another Model's Activation. If it does so, the model takes itself Out of Action. During the following Trauma Step, the model is treated as having rolled a Full Recovery result on the Trauma Table.

Shroud of Balak | 50 ⛑ | Sorcerer only

The Moabite King Balak once sought to invoke the power of Belphagor to curse the Israelites, and when the Duchess of the Gap responded, she did so in a way only she would. Rather than directly hex the Israelites, the Duchess of the Gap's magician-envoy convinced Balak of the inevitability of YHWH's Will, and instead sought to tempt the followers of the Almighty into distraction via worship of Belphagor and pleasures of the flesh. Such was the resulting power of Sloth that the Israelite God was forced to retaliate via a plague, taking the lives of 24,000 heretics. As for Balak, so deep had the king sunk into the melancholia of his failure that he had not bothered to notice his own death. Particularly favoured Sorcerers of Sloth are gifted a shroud crafted with some aspect of his still conscious corpse, engulfing them in heavy robes woven from his hair and treated with his marrow.

Type	Range	Keywords
Equipment	–	TOUGH

Weltschmerz Weave: A model with the Shroud of Balak cannot take Dash ACTIONS. In addition, if the model has only taken the Cast Spell ACTION once during its Activation, it can take another Cast Spell ACTION to cast the same Goetic Spell a second time (they must pay the spell's cost each time as normal). If they do so, they cannot take the Cast Spell ACTION again for the rest of that Activation.
