New Antioch Fireteams: A New Antioch Warband can include up to 2 Fireteams. Each Fireteam consists of any two models from the Warband. All of the models in the Fireteams are given the Fireteam Keyword at no additional cost in . Fireteams in a New Antioch Warband have the Concentrated Attack ability:
FIRETEAM: Models that are part of the same Fireteam can be Activated simultaneously. They can take their Actions in any order you wish, and you can switch between the two models freely. However, if the Activation of either member of the Fireteam ends (due to a failed Risky Success Roll for example), it immediately ends for the other model that is in the Fireteam too.
Concentrated Attack: If a model from a Fireteam hits a target that had been hit by an attack made by the other member of their Fireteam earlier in the same joint Activation, then you can spend 3 Blood Markers to convert the Injury Roll for the second attack to a Bloodbath Roll, even if the target is not Down.
